

Certificate of Course Completion

Course: Professional Ethics for Physical Therapists & Rehabilitation Professionals

Student: Scott Sevinsky

Start Date: 12/11/18

Completion Date: 12/13/18

Learning Objectives and Goals:

- Apply the four fundamental biomedical ethical principles and core values to physical therapy practice.
- Assess the scope of professional activities that may give rise to an ethics complaint, licensing board adverse action, and/or malpractice claim or lawsuit.
- Analyze and improve management of ethicolegal practice-related problems associated with contracting and employment and regulatory law.
- Extrapolate ethical and legal principles learned to existing PT and rehabilitation practice in clinic, education, research, and all other settings.
